

The North American Strawberry Growers Association

The North American Strawberry Growers Association is offering sponsorship opportunities for our upcoming summer tour based out of Baltimore, Maryland over August 11th and 12th. Tour stops include berry farms, research facilities, farm markets, as well as growers involved in value added activities on the farm. Maryland offers different production systems with traditional matted row systems at inland farms to annual plasticulture systems on the eastern shore. It is argued that Maryland strawberry growers operated the first pick your own strawberries in North America.

All sponsors will receive recognition in upcoming newsletters and on our website as well as in the package handed out to tour participants. There will also be an opportunity to submit information or promotional items to insert in the participant packages. Recognition of support will also be made in promotional advertising. There will also be a professional sign highlighting all of our sponsors and their level of sponsorship that will be displayed at the tour.

Sponsorship Levels for funding NASGA ideal for individual or anonymous support:

- Platinum Sponsor Contributions of \$1,000 or more
- Gold Sponsor: Contributions between \$500 and \$999
- Silver Sponsor: Contributions between \$250 and \$499
- Bronze Sponsor: Contributions between \$100 and \$249

For more information contact the: Kevin Schooley at 613-258-4587

The North American Strawberry Growers Association (NASGA) represents growers, nurserymen, researchers, Extension specialists, and suppliers in the strawberry industry. The Summer Tour, held at a different location each year, is a highlight for our members.
